

OSCAR MARTÍN DE BURGOS

September, 2025

Oscar Martín De Burgos is a distinguished Spanish sculptor and mystic whose practice seeks to bridge the temporal and the eternal—unifying past, present, and future expressions of spirituality. Rooted in the symbolic language of prehistory, his work channels ancestral cultures through a profound psychic empathy, reawakening ancient memory within a contemporary context. By employing a wide range of materials—bronze, brass, aluminium, polymers, and ceramics—Martín De Burgos creates works that transcend the linearity of history, engaging viewers in a universal dialogue that is both timeless and accessible.

His pieces of art are in public and private collections all over the world and he has also been commissioned by institutions and private companies for large scale public art works.

Martín de Burgos has been represented by Stanley Street Gallery since 2019.

Education

Sculpture and Environmental Design at School of Art and Design of Alicante (Spain).

Urban, Environmental and Landscape Design. Alicante (Spain).
